

A.7 Approval of applications for membership of the World Veterinary Association

Applications for membership will be submitted to the WVA Council for approval and acceptance. (EXCOM 24 February 1998)

Guidelines

Applications for membership of the WVA may be received by the Council at any time of the year. Where applications are considered out of session, they may be ratified by a written procedure to confirm by a majority vote within the Council to formally accept the membership request.

This procedure will enable the new member to actively participate in the affairs of the WVA without having to await until the next Council meeting or Presidents' Assembly.
