CALL FOR MENTORS

We are pleased to invite experienced veterinary paraprofessionals and veterinarians working in Central and Eastern - North Eastern Uganda to become mentors for veterinary paraprofessionals.

Would you like to mentor veterinary paraprofessionals?

- Are you an experienced veterinary paraprofessional (VPP) or veterinarian working in Central or Eastern-North Eastern Uganda?
- Would you like to share your knowledge and support veterinary paraprofessionals (VPPs) in improving their preventive health care skills while growing their businesses?
- Are you passionate about supporting the sustainable development of animal health services in smallholder farmer communities?
- Are you ready to commit to a year-long engagement, mentoring VPPs in person and virtually?

What does mentoring involve?

- Assist VPPs in their self-assessment of competency levels.
- Support VPPs to develop learning priorities aligned with their business goals.
- Guide on setting goals for their businesses.
- Provide mentoring and advice as VPPs work towards their learning priorities and business goals.
How would you benefit?

Join a training in mentoring best practices.

Benefit from a Community of Practice of mentors and exchange with a peer network including the World Veterinary Association. High-level speakers would also be invited to this community of practice.

If you are interested, please register by completing the form. Applications should be received by November 21, 2022.

What is required?

- Completion of an online training course (six hours) and attend a one-day mentor-mentee networking event in person in your region.

- Monthly meetings with VPPs, which will be arranged at the convenience of the mentor and mentee and may be face-to-face or online.

- Community of practice call once every three months to exchange on the mentoring process.

The mentorship program is organized as part of the project “Sustainable Business in Animal Health Service Provision through Training for Veterinary Paraprofessionals” led by the European Commission for the Control of Foot-and-Mouth Disease (EUFMD) of the Food and Agriculture Organization of the United Nations (FAO), in partnership with HealthforAnimals and the World Veterinary Association.
